

GreenOil supply for Havyard 831 L SOV-design

Ditech Filter Solutions in Norway which are the distributor of the products from GreenOil Standard ApS in Denmark have together secured the contracts for three new Service Operation Vessels. Havyard Ship Technology and ESVAGT have selected Ditech and GreenOil for the supply of all offline oil filtration systems for total 21 systems in different oil applications onboard each vessel.

“GreenOils filtration principle is quite unique and cost effective for ship owners. It has been a success and since we introduced the solution for the Norwegian market. We are proud that Havyard together with ESVAGT has chosen the GreenOil filter solution”, says Sales Manager at Ditech, Johannes Solsvik

In GreenOil we are happy to continue our strong growth in the maritime market where it recognized the many benefits of the GreenOil system compared with other traditional filter systems. GreenOil have now secured 8 out of ESVAGT’s latest 10 newbuilding’s.

ESVAGT knows that clean oil is vital on the long term to keep the vessels in good and safe operation conditions and we are happy to continue our cooperation with ESVAGT, says Sales Manager in GreenOil Mr. Rune Hjortnæs Pedersen.

We have been cooperating with Ditech since 2012 and we have been happy to see the yearly growth in the Norwegian region and we are proud to be an important supplier for them.
